Awards in Germany for the OYSTER Italian Value Fund

Tuesday, 03/21/2017

SYZ Asset Management, the institutional asset management company of the SYZ Group, has announced that its fund OYSTER Italian Value C EUR PR has been awarded twice.

SYZ Asset Management, the institutional asset management company of the SYZ Group, has announced that its fund OYSTER Italian Value C EUR PR has been awarded twice by the German press team €uro, €uro am Sonntag and Börse Online in the category Italian Equities at the first place over one year, and at the third over 10 years.

The OYSTER Italian Value C EUR PR fund is a German-registered sub-fund of the OYSTER SICAV, which is a Luxembourg domiciled UCITS managed by SYZ Asset Management (Luxembourg) SA. The management mandate has been externally entrusted since 1999 to Alessandro Pacchiani of Banca Ifigest S.p.A.

This accolade underlines the value investment strategy followed by Alessandro whose stock-picking is based on a bottom-up approach and a value bias, thus focusing on companies attractively priced relative to their fair value.
