This is a unique opportunity within Bank Syz. We are is seeking a private markets/real assets research analyst. The candidate will be responsible for all aspects of the investment process including industry research, due diligence, closing and portfolio company monitoring. The position will report to the Head of Advisory and should work in close collaboration with Syz Capital.

Your missions

- Perform adequate sourcing, due diligence, execution and monitoring on non-traditional assets being Venture Capital, Private Equity, Real Estate or any other alternative assets with limited liquidity and transferability
- Contribute across the full investment process in reviewing and executing direct deals
- Support the investment team by taking ownership of the financial modelling process and by contributing to the preparation of due diligence analysis and industry reports for the investment committee
- Involved in the structuring and execution of financing, legal documentation and deal negotiation
- Assist in managing existing portfolios
- Promote private markets & real assets solutions within the Bank

Your profile

Professional experience:

- Bachelor/Masters' Degree preferably with a focus on Finance
- Strong research, analytical and quantitative skills
- 7-10 years' experience (could be with a Private Bank, Family office, PE fund, M&A, Transaction services)
- Thorough understanding of private equity and/or private debt and/or real estate process and market dynamics
- Some corporate advisory experience would be a plus

Personality characteristics:

- An entrepreneurial mindset
- Initiative, confident and professional attitude
- Ability to perform under pressure and meet time sensitive deadlines
- Strong verbal and written communication skills including presentation experience
- Self-starter, must be organized and able to work independently

Language requirements:

Fluent French & English, if possible another European language a plus (Spanish, German)
